

## MEDES Release 4.13.1

### What is going in?

JIRA Ticket Number	Task Name (JIRA Description)
MEDES-147522	INTEGRATED CASE-UHSE APPLYING CHANGES-JAVA NULL POINTER EXCEPTION-MEMBERPAYCOUNTY
MEDES-147673	IC-CEC EXTENDED ELIGIBILITY-RECEIVED DATE ON GUIDED CHANGE CAUSES MISSING ME CODE
MEDES-147896	IC_PDC-CEC GRANTS \$0 PREMIUM FOR CHIP 75 ONGOING DUE TO 30-DAY WAIT PERIOD ON CLOSED IC
MEDES-132891	Notice - Denial, Closing and Reduction Reasons need updated to remove income maximum
MEDES-146365	Incorrect Premium amount displayed on Current Determination segments

### What is the reason for this release? What is changing?

#### MEDES-147522 INTEGRATED CASE-UHSE APPLYING CHANGES-JAVA NULL POINTER EXCEPTION-MEMBERPAYCOUNTY

- Reason the ticket was created – The field received an unhandled server error message when attempting to apply changes to an Integrated Case (IC) related to householdMemberPayCounty. System corrections were made to resolve the error on the IC.
- Changes the field should expect –The field will only see this error when there is evidence that needs to be corrected, such as relationships between a newborn and birth mother.

#### MEDES-147673 IC-CEC EXTENDED ELIGIBILITY-RECEIVED DATE ON GUIDED CHANGE CAUSES MISSING ME CODE

- Reason the ticket was created – The CEC EEE created after adding a child to an IC. When two different dates were used for the Date Reported and Enter the date on which the person joined the household, the CEC EEE created without an ME Code. A validation message was added to the guided change to ensure workers enters the Date Reported and Enter the date on which the person joined the household to match.
- Changes the field should expect – A validation message was added to the Guided Change – Add a Member screen stating “Date Reported and Date on which this person joined the household must be the same date.”

#### MEDES-147896 IC\_PDC-CEC GRANTS \$0 PREMIUM FOR CHIP 75 ONGOING DUE TO 30-DAY WAIT PERIOD ON CLOSED IC

- Reason the ticket was created – The premium rules are updated to look at eligibility when determining a premium, and the incorrect zero amount has been changed to a null amount

when no data is found on the DST for any period. A fix will be ran to correct existing cases where the premium amount is showing \$0.

- Changes the field should expect – The system will no longer protecting \$0 premium for CHIP cases due to CEC.

MEDES-132891 Notice - Denial, Closing and Reduction Reasons need updated to remove income maximum

- Reason the ticket was created – The income maximums that were added to the reasons on the notices in certain circumstances does not make sense in relation to the household monthly income so it will be removed to resolve any confusion created.
- Changes the field should expect – The income maximums will no longer show in the reasons on the notices.

MEDES-146365 Incorrect Premium amount displayed on Current Determination segments

- Reason the ticket was created – CHIP premium amount displayed on the Current Determination did not match the amount displayed under Monthly Premium Amount when expanded. The screen will display what the appropriate premium would be based on the household size and FPL level.
- Changes the field should expect – The Current Determination screen will display what the appropriate premium would be based on the household size and FPL level.
